Amazon to set up its first solar project in India

New Delhi: Amazon on Wednesday announced the setting up of the first of its three solar farms totalling 420 MW. All three projects are in Rajasthan,” Amazon said. As part of Amazon’s India plans, Amp Energy India, a renewable energy producer, has signed a power purchase agreement with Amazon. The 100 MW plant in Rajasthan will be fully operational by the end of 2023 in Bhadla, Rajasthan. RISHI RANJAN KALA
